Introduction

Ringkjøbing Landbobank's annual Environmental, Social and Governance (ESG) report focuses on selected subjects in more detail and presents ESG key figures. This Fact Book should therefore be read as a supplement to the ESG report.

It presents data in a more compact and clear form and beyond the scope of the ESG report.

Conversely, the ESG report deals with subjects that do not lend themselves to the fact book style of presentation. For example, the ESG report reviews the bank's ownership of Sæbygård forest (owned via its subsidiary Sæbygård Skov A/S), which in fact more than covers the bank's CO₂ emissions. In addition, the forest has great recreational value for local residents.

Our collection and presentation of ESG-related key figures are in many ways still in the making and we continue to develop and refine our methods of statement and calculation. This means that some sections of the Fact Book are only descriptions of the bank's initiatives. In the longer term, we hope to be able to quantify our reporting in these areas. For the same reason, we do not report the bank's Scope 3 emissions at this stage, except those from the bank's loan portfolio and investments.

Since 2021, Ringkjøbing Landbobank has been committed to the UN Global Compact corporate responsibility initiative and its principles in the areas of human rights, labour, the environment, and anti-corruption. We also support the UN Sustainable Development Goals.

It should be noted that the bank has no subsidiaries or associated companies conducting banking operations. The bank's ESG guidelines also apply to Sæbygård Skov A/S.

E – Our business

	Data	Comment
Responsibility		
Managerial responsibility	✓	The bank's CEO has day-to-day responsibility for ESG-related matters. The board of directors has overall responsibility.
Investments		
<p>Ringkjøbing Landbobank is subject to the rules of the Disclosure and Taxonomy Regulations. The regulations aim to give the customers better sustainability-related information on investment products and services. The regulations specify the information we are required to disclose to our customers as part of our advisory service and trading in investment products and services.</p> <p>In response to these requirements, we have prepared a number of policies, which can be found on the bank's website. In addition, the bank has procedures to support and guide its employees. The investment advisers have received supplementary training in the rules.</p> <p>The bank's finance department has worked with the bank's investment partners to categorise the investment products offered by the bank according to the three types given in the disclosure regulation: article 6, article 8 and article 9 products. Article 6 products have no particular environmental or social aspects and do not target sustainable investments, whereas article 8 products promote environmental and social characteristics and integrate them into the investment decision, and article 9 products have a sustainable investment objective.</p>		
Integration of sustainability risks	✓	The bank has a Policy for integration of sustainability risks , which describes the ESG risks that are associated with and can affect our customers' investments.
Assets not covered by the Taxonomy Regulation.	81.2%	Data for 2022. Please refer to the descriptions in the bank's ESG reports (included from 2021).
Total CO ₂ e emissions from the holding of investment products (tonnes)	58,255	Data for 2022. For more detailed definitions and information, please refer to the descriptions in the bank's ESG reports (included from 2021).
Total CO ₂ e emissions from the holding of investment products per invested million Danish kroner (tonnes)	3.12	Data for 2022. For more detailed definitions and information, please refer to the descriptions in the bank's ESG reports (included from 2021).
Investment funds focusing on sustainability	✓	Ringkjøbing Landbobank offers investment funds focusing on sustainability and responsible investments in partnership with BankInvest. See bankinvest.dk/baeredygtighed (in Danish) for further details.
Lending		
<p>In 2022, the bank reported on carbon emissions from its loan portfolio for the first time. The statement is based on models and the bank expects a gradual transition to company-specific emission data in the long term. Ringkjøbing Landbobank thus complies with the relevant recommendations prepared and</p>		

<p>published by the Forum for Sustainable Finance. The Forum’s work supplements the Taxonomy Regulation.</p> <p>The bank will continually provide further training to its employees, further develop models, and adjust its policies and procedures to ESG matters.</p> <p>The work is described in more detail in the bank’s ESG reports (included from 2021).</p>		
Assessment of ESG risks on lending	✓	Assessing whether our customers are associated with or exposed to particular ESG risks relevant to the specific industry of the lender is part of our credit assessment/preparation of the recommendation for a loan. ESG risks are also included in the assessment of the loan values of assets provided as collateral security.
Central credit risk assessment of ESG risks	✓	When reviewing recommendations for loans, the bank’s central credit department also assesses ESG risks. The review is risk-based, which means that the focus is on industries/undertakings with a high ESG impact. Loan recommendations with high ESG risk are escalated to the bank’s credit committee.
Financing of sustainable energy	✓	Ringkjøbing Landbobank has granted finance for sustainable energy for many years and today specialises in financing the construction and operation of wind and solar farms and biogas plants.
Financing of agriculture	✓	With roots in West and North Jutland, it is natural for the bank to finance agriculture. Financing of agriculture is only a small part of the loan portfolio, however, and lending is subject to the same conditions for ESG risks as the rest of the portfolio.
Financing buildings (EPC A and B)	✓	Ringkjøbing Landbobank offers loans, directly and via partners, to build, renovate and buy new or existing buildings with all energy performance certificates (EPC). At present no special advantages are attached to financing of buildings with specific EPCs.
Financing low-emission transportation	✓	Ringkjøbing Landbobank offers car loans on attractive terms for electric, hydrogen or plug-in hybrid cars. See Green car loan (in Danish).
Excluded sectors	✓	Ringkjøbing Landbobank has excluded a number of sectors to which no loans are offered. These sectors are: <ul style="list-style-type: none"> - Fossil fuel extraction and production including coal mines - Nuclear energy - Arms and defence industry - Tobacco industry
Energy efficiency loans	✓	Ringkjøbing Landbobank offers loans for improvement of energy efficiency, e.g. replacement of oil and gas burners, in part in collaboration with Totalkredit. An

		energy efficiency check of the home is also offered at favourable prices. See Energy calculator (in Danish).
Reduction of domestic CO ₂ emissions	✓	In partnership with Totalcredit, Ringkjøbing Landbobank has launched an energy calculator that can calculate any energy savings from renovating or improving a property. See Energy calculator (in Danish).
Bond programmes		
EMTN programme	✓	The bank has had an EMTN programme since 2008. For further information, please see the bank's website .
Green bonds	✓	In 2022, the bank has established a Green Bond Framework and can now issue green bonds. The programme has been verified by Sustainalytics .

E – Targets

Activity	Target	Status
The bank will compensate for its CO ₂ emissions (scopes 1 and 2) by buying certified climate credits	100%	In 2022, the bank bought credits covering 300 tonnes, equivalent to 162% of the bank's emissions. Carbon sequestration in Sæbygård Skov forest must be added to this.
The bank's electricity consumption must come from renewable energy sources	100%	In collaboration with Scanenergi, the bank has ensured that the electricity it consumes comes from wind turbines.
Reduction of emissions from investments	✓	Ringkjøbing Landbobank published CO ₂ emissions from investments for the first time in 2021. See the bank's ESG reports. At 31 December 2022 emissions had decreased to 58,255 tonnes from 98,817 tonnes at 31 December 2021, equivalent to a decrease of 41.6%. The bank regards the statement of CO ₂ emissions from investment activities as the first of several steps towards reducing CO ₂ emissions. The bank will use the statement as a guideline for the further work of identifying possibilities of decreasing negative and increasing positive effects. As more data measurement points become available, they can form the basis for setting percentage reductions or similar targets.
Reduction of emissions from loans	✓	The bank published CO ₂ emissions from loans for the first time in 2022. See the bank's ESG reports . The bank regards the statement of CO ₂ emissions from lending activities as the first of several steps towards

		<p>reducing CO₂ emissions. The bank will use the statement as a guideline for the further work of identifying possibilities of decreasing negative and increasing positive effects.</p> <p>The quality of the model-based statement is expected to improve as more of the bank's customers state their actual CO₂ emissions and disclose them to the bank.</p> <p>As more data measurement points become available, they can form the basis for setting percentage reductions or similar targets.</p>

	Data	Comment
Consumer protection/good practice	✓	In Denmark, consumers' basic rights are protected by regulation. A range of industry-specific executive orders and guidelines on good practice etc. also contribute to protecting the rights of consumers. See for example the Executive order on good practice for financial undertakings (in Danish) and the Guideline for the executive order on good practice (in Danish). In addition, private consumers are entitled to submit complaints to the Danish Financial Complaint Board at negligible cost.

GDPR governance structure	✓	<p>The bank's DPO is responsible for monitoring and dealing with GDPR issues, including any data requests. This ensures uniform, high-quality compliance. In practice, follow-up on this obligation takes place in partnership with the individual departments.</p> <p>The bank has introduced ongoing monitoring to ensure that data are only processed by relevant persons for work-related purposes.</p> <p>The DPO refers to the CEO and yearly reports to both the CEO and the board of directors.</p>
Data protection	✓	<p>All employees participate in a recurring (quarterly) training programme consisting of both IT awareness and data protection. Therefore, they have all completed relevant mandatory courses on data protection (GDPR). Please also see the Code of conduct for Ringkjøbing Landbobank, Personal data policy for shareholders etc. and Processing of personal data. The above and the bank's internal privacy policy cover all of the bank's business areas/operations.</p> <p>The bank places great emphasis on ensuring control and protection of personal and sensitive data. See below under "IT and access security" for further descriptions.</p>
Data ethics	✓	<p>The bank has adopted a data ethics policy which provides the framework for the bank's ethical principles and conduct in relation to data.</p> <p>The bank publishes an annual statement on its work and policy on matters of data ethics. See the bank's website.</p> <p>Please also see page 40 of the bank's annual report for 2022.</p>
Minimising data collection, use and storage	✓	<p>The bank collects, uses and exchanges only data required by law or for which consent has been given.</p> <p>The customers always have the right of access to the data collected about them and the right to have their data rectified if they contain errors.</p> <p>The data are deleted when a customer relationship ends, unless a longer storage period is required by law.</p> <p>The bank thus follows the applicable GDPR rules.</p>

Securing private data	✓	<p>The Danish national identification and security system, MitID, must be used to secure our customers' private data when they log into mobile and online banking.</p> <p>Users of the bank's website have the option of minimising the number and scope of cookies, and customers using the mobile banking app can define their own data collection permissions.</p>
IT and cybersecurity governance structure	✓	<p>Together with 7 other Danish banks the bank owns an IT data central, Bankdata, to which the operation and management of the IT systems are outsourced.</p> <p>Bankdata has a comprehensive security and governance setup in place and ensures that all IT installations and systems are secured, maintained, and updated. This is regularly audited by both Bankdata's external and internal auditors.</p> <p>The IT department and the CIO of the bank have the overall supervisory responsibility for controlling of the operation of Bankdata.</p> <p>The bank's IT contingency plans are tested yearly by the IT department and the CIO.</p> <p>The CIO reports regularly to both the CEO and the board of directors of the bank on IT/cybersecurity, contingency plans, IT operation etc.</p>
IT and access security	✓	<p>The bank has introduced policies and procedures to ensure correct processing of data regarding customers, employees, and other partners. The policies and procedures also help to ensure that no adverse events occur. The bank's board and general management have the overall responsibility on IT security areas etc.</p> <p>Bankdata ensures that all IT installations are maintained and updated, and a Tiber-dk test of cyber security is performed twice a year.</p> <p>IT installations and processes at Bankdata are checked on an ongoing basis in accordance with the ISO standards framework and the requirements of the Danish Executive Order on Outsourcing for Credit Institutions etc. and Annex 5 of the Danish Executive Order on Management and Control of Banks etc., and monthly reports are sent to all member banks. The bank also follows up itself on compliance with the Executive Order on Outsourcing and</p>

		<p>Annex 5 of the Executive Order on Management and Control of Banks. The bank's IT department is responsible for continually monitoring outsourced IT activities and reporting on them to the bank's board of directors and general management.</p> <p>Moreover, Bankdata's systems are audited on an ongoing basis by Bankdata's internal and external auditors.</p> <p>In addition, the bank's general IT security, including IT policies, is audited by the bank's internal audit function, which is assisted by IT auditors from the bank's external auditors every three years.</p> <p>To prevent abuse of our customers' funds and data, Ringkjøbing Landbobank has a comprehensive set-up with strict access controls for internet and mobile banking and other customer systems.</p> <p>Access requirements and controls are also in place for the bank's systems. Login from external devices always requires two-factor authentication and access is only given through the bank's Citrix installation.</p> <p>The bank's systems also ensure encryption of data when exchanging data with both internal and external parties.</p>
<p>Incident reporting and data breaches</p>	<p>✓</p>	<p>If data security is breached, the bank's DPO is involved immediately and investigate the incident.</p> <p>The DPO informs the affected customers and, if required, submits a report to the Danish Data Protection Agency.</p> <p>In addition, any incidents and how they were handled are reported to the CEO and the board of directors regularly and at least annually.</p>
<p>Monitoring of anti-money laundering</p>	<p>✓</p>	<p>The bank's department for anti-money laundering and operational risk continually monitors customer transactions, and all the bank's employees are obliged to pay attention to patterns of customer activity and changes to these patterns. If any changes are identified, all employees are obliged to report them to the department for anti-money laundering and operational risk.</p> <p>The bank's monitoring model is risk-based, and customers are classified and given a risk score. The bank has initiated increased monitoring and review of</p>

		<p>customers with a high risk score and of transactions to and from high-risk countries.</p> <p>Please also see pages 39-40 of the bank's annual report for 2022.</p>
Responsible marketing	✓	<p>Ringkjøbing Landbobank gives customers thorough advice on the risks associated with the bank's products, e.g. loans and investments; this is also a Good practice (in Danish) requirement. In addition, the bank's price list (in Danish) is available on the website.</p>
Review of new and existing products and services	✓	<p>New and significantly changed products and services are reviewed and approved continually.</p> <p>The relevant departments, with the involvement of the bank's risk and compliance functions, make proposals for new and significantly changed products and services. These proposals are then submitted to the general management and last to the bank's board of directors for final review and approval. In this way, the board of directors is fully involved in approving new and significantly changed products and services.</p> <p>In addition, existing products and services are reviewed at least every three years. This is also reported to the board of directors.</p> <p>At least once a year, the board of directors is informed of the sales of investment products etc. This information is given in reports from the compliance function.</p> <p>Please also see page 40 of the bank's annual report for 2022.</p>
Responsible investment	✓	<p>In Ringkjøbing Landbobank it is possible to invest responsibly (in Danish) and sustainably (in Danish).</p> <p>See also the bank's Policy for integration of sustainability and ESG-reports for further details.</p>
Responsible and sustainable investment policy	✓	<p>Please see Ringkjøbing Landbobank's Policy for integration of sustainability.</p>
Responsible sales methods	✓	<p>Naturally, Ringkjøbing Landbobank follows legislation in the area: see Executive order on good practice for financial undertakings (in Danish) and Executive order on good practice for mortgage lending (in Danish), which specify, among other things, that financial undertakings may not use misleading or incorrect statements or omit important information if this is likely to materially distort the clients' economic decisions in market practice.</p>

		<p>In addition, all the bank's advisers are educated and certified in the granting of mortgage credit, insurance intermediation, and investments.</p> <p>Finally, we embody Ringkjøbing Landbobank's core values: competent, responsive, and proper. These values are formalised in our Code of conduct.</p>
Training of customers	✓	<p>It is a requirement in Denmark that advice on pensions, mortgage lending, insurance, investment etc. must enable customers to make informed choices based on their own situation and finances. In certain areas, the customers must acknowledge that they have received advice.</p> <p>Advice to customers thus involves training of customers.</p>
Pay linked to sales targets	No	<p>The paramount rule is that no variable remuneration is paid which depends on meeting sales targets. See the bank's remuneration policy for further information regarding the bank's management and major risk-takers.</p>
Customer retention ratio	91.5%	<p>Data for 2022.</p> <p>The bank also considers the result of the largest survey of customer satisfaction etc. in Danish financial institutions to be an adequate assessment of customer satisfaction with the bank. The survey is carried out by Voxmeter.</p> <p>In the January 2020, January 2021, January 2022 and January 2023 surveys, the bank is placed in the top half of this scale.</p> <p>Please see the bank's ESG reports.</p>
Customer complaints	✓	<p>The bank aims to resolve problems and disagreements through dialogue. If this is not possible, the bank's customers may complain here: Complaints procedure (in Danish).</p> <p>Please also see page 41 of the bank's annual report for 2022.</p>
Independent complaints function	✓	<p>Ringkjøbing Landbobank has an independent complaints function which handles complaints that cannot be resolved by the department which served the customer (the customer's adviser and the adviser's manager).
